

CMSP Recertification Guidelines and Standards

Requirements / Guidelines

1. 275 recertification units (RUs) are required over 4 years to recertify. For retired CMSPs, 20 recertification units (RUs) will be required. (Exceptions to the requirements may be granted for illness, unemployment and other exigent circumstances). The cost of recertification is \$100. Use the “Recertification Application” form to tally your RUs and make payment.
2. Individuals will submit their RUs at the end of the four-year certification period. No documentation will be required, but applications for recertification are subject to random verification and candidates may be asked to supply additional information.
3. All CMSPs will be required to pledge that their submitted RUs are accurate. (See www.simprofessional.org).
4. Unless otherwise specified, one cannot earn double points by applying any single activity to more than one category. For example:
 - as part of regular duties, Professor can get points for either "Employment" OR "Instructing College Courses", but not both.
 - as part of regular duties, a full time employee who takes a company-offered/sponsored course on company time can only get points for “Employment” (not “Education” too).
 - Credit, however, can be earned for part-time work. (i.e., a research associate can earn credit for teaching a class).
5. Body of Knowledge (BoK) is defined in MSPCC Implementation Plan.
