

Resources

This page lists severable valuable resources for the CMSP Examination—as well as for the discipline of Modeling and Simulation in general.

Most relevant to the CMSP Examination are the following:

- Sokolowski, J. A., & Banks, C. M. (2010). *Modeling and simulation fundamentals: Theoretical underpinnings and practical domains* (J. A. Sokolowski & C. M. Banks, Eds.). Wiley-Blackwell.
- Banks, J. (Ed.). (1998). *Handbook of simulation: Principles, methodology, advances, applications, and practice*. John Wiley & Sons.
- Tolk, A. (2017). *The profession of modeling and simulation: Discipline, ethics, education, vocation, societies, and economics* (A. Tolk & T. I. Oren, Eds.). John Wiley & Sons.
- Sokolowski, J. A. (2009). *Principles of modeling and simulation: A multidisciplinary approach* (J. A. Sokolowski & C. M. Banks, Eds.). Wiley-Blackwell.

The following are also valuable resources, primarily domain-specific:

- Greasley, A. (2010). *Enabling a Simulation Capability in the Organisation*. Springer.
- Banks, J., John S. Carson, I. I., Nelson, B. L., & Nicol, D. M. (2009). *Discrete-Event System Simulation* (5th ed.). Pearson.
- Smith, R. (2009). *Military simulation & serious games: Where we came from and where we are going*. Modelbenders.
- Schmorow, D., Cohn, J. V., & Nicholson, D. (2008). *The PSI handbook of virtual environments for training and education: Developments for the military and beyond, volume 2, VE components and training technologies*. Praeger.
