

# GOORU

LEARNING NAVIGATOR - a “GPS for Learning”  
With an interoperable framework for competency, learner  
profile and recommendations

gooru

Education is a Human Right

# Learning Navigator - a "GPS for Learning"

Honor the Human Right to Education

## Dr. Prasad "Pram" Ram

- Founder, Gooru.org, researched and developed learning navigation technology - patent pending.
- Director of Research at Google, led projects on Maps, News, Books, Translation, Search and Ads.; Engineering leader at Yahoo!, Research Scientist at Xerox PARC.
- Ph.D. Computer Science, UCLA, B.Tech. Computer Science, IIT-Bombay (1987).

## Learning Navigator

- Prototyped at Google by Pram and founded in Silicon Valley to bring "Google Maps for Learning".
- Informed by practice and backed by science, developed technology, prototypes and implemented in programs in US schools.
- Developed the Learning Navigator and using that to bring math proficiency within 3 years for everyone.

Education focuses on destination,  
i.e., what the student should learn  
with courses, standards, and  
assessments

**BUT**

Education lacks detailed  
data on student's location, i.e.,  
knowledge, skills and dispositions

## High-rates of high-school and college dropouts

1.2M

Students drop out of high-  
school every year (25%)

31%

Students dropout  
of college

## Students perform poorly in Math in High-school and College

80% of high  
school freshman  
below grade  
level in urban  
schools

# To Navigate a learner, first Locate them, then Curate activities, Facilitate practices and Mediate pathways

- Current Proficiency
- Competency Based Lesson
- 📍 Destination

Learning Pathways

**MEDIATE**  
PATHWAYS

- Competencies
- Monitor Progress
- .... Personalize Suggestions

Classroom Practices

**FACILITATE**  
PRACTICES

- Courses
- Collections
- Assessments
- Resources

Learning Activities

**CURATE**  
ACTIVITIES

- Mastery
- Effort
- Performance

Learner Profiles

**LOCATE**  
LEARNER

# Navigator - Student Experience

"You have arrived at your destination"

Student's knowledge, skills and mindsets are located with precision

Students obtain a learning route based on their profile

Study using Navigate Math content that spans grades 2-8

Receive reroute suggestions based on performance

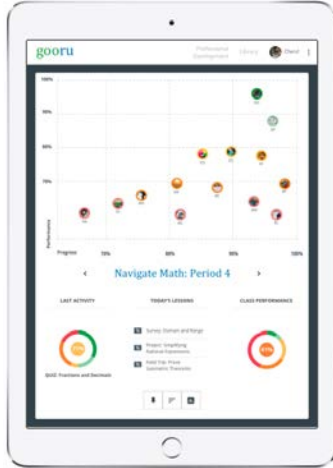

Review progress by inspecting their learning path

**Learning route based on profile  
and reroute based on performance**

# Navigator - Educator Experience

Monitor Students, Personalize Instructions and Professionally Develop

Teacher monitor their students progress and performance and can personalize their interventions

Teacher receive suggestions for students based on curriculum and non-cognitive skills performance

Teachers receive suggestions for their own professional development informed by their class performance

For past 3 years, high-school students using a research prototype of the Navigator called “Navigate Math” achieved 2.8 years of growth in one year

## LEADERSHIP PUBLIC SCHOOLS

Low-income

First in family to  
go to college

80% of incoming  
freshman enter  
with math skills  
below 9th grade .

[Christensen Institute Report, July 2016](#)

## URBAN EDUCATION

- Pre-algebra & student agency
- Avg of 2.8 years of growth per year measured by NWEA MAP
- Taught across 3 schools by teachers ranging from first year to veterans

*The above results are not from navigator for math, but, from a research prototype called navigate math which also included extensive classroom practices and non-cognitive skills development.*

# Learning Navigator: Study - Teach - Build

Students study with performance based Suggestions

Educators build other Navigator courses

Educators curate 4.4M open rich-media resources into competency-based courses complete with assessments

## LEARNING NAVIGATOR

Navigator suggests a learning route based on student profile & reroutes based on performance

Teachers personalize using real-time data

Teachers use real-time data from student performance to personalize instruction

# Navigator Informed by Practice and Backed by Science

## Board of Directors and Advisors

**Prof. Nancy Songer** Dean,  
School of Education,  
Drexel University

**Dr. Michelle Rodriguez**  
Superintendent, Pajaro  
Valley Unified School  
District

**Prof. Kenji Hakuta** Professor,  
School of Education,  
Stanford University

**Dr. John Seeley Brown** Co-Chairman,  
Deloitte  
Center for the Edge, Former  
head of Xerox PARC

**Prof. Srinath Srinivasa**  
Data Scientist, Professor &  
Dean of Research, IIIT-B

**Prof. Youngmoo Kim**  
Director of EXCITE Labs,  
Prof. Electrical and  
Computer Engineering  
Drexel University

**Prof. Zach Pardos**  
Prof. Electrical and  
Computer Engineering  
University of California,  
Berkeley

**Prof. Lav Varshney**  
Asst. Prof. Dept. of ECE,  
University of Illinois,  
Urbana-Champaign

**Prof. M.S. Krishnan** Ross  
School of Business,  
U.Michigan, Ann-  
Arbor

**Dr. Louise Waters**  
CEO, Superintendent,  
Leadership Public  
Schools

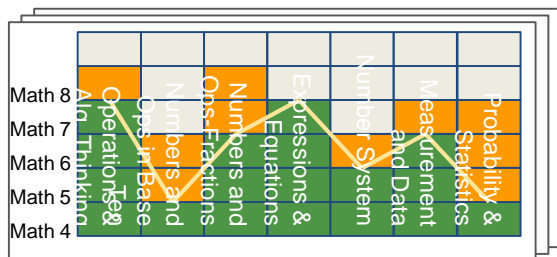

**Dr. Neal Finkelstein**  
Director of K12  
Evaluation Studies,  
WestEd

**Dr. Caprice Young**  
Superintendent and  
CEO of Magnolia  
Public Schools

# Provisional Patent for Learning Navigation Technology

## LOCATE

"Skyline" / subject locates mastery in concepts and also track Progress, Portfolio and Preferences

## CURATE

5M Learning Activities with Questions, 20,000 Collections & Assessments

## FACILITATE

Teachers can monitor, engage in live assessment and personalize instructions

**Unit 1**  
 2.04 Ordering Negative Numbers  
 2.04 Number Opposites  
 2.04 Number Opposites  
 Assessment  
 Understanding Opposites  
 2.04 Ordering Numbers & Opposites  
 2.05 Adding Integers  
 Two Digit Addition  
 2.10 Adding Negative Numbers

## MEDIATE

Suggest route based on profile and reroute based on performance

# Competency Graph with Dependencies

## X-Y-Z Coordinates

- *Subject-Level-Domain values*

## Concept Lists

- *Concepts have a list of potential mis-concepts*

## Crosswalk

- *Across all standards framework*

## Metadata

- *Title & Description*
- *2-word display*

## Signature Content

- *Collections to learn*
- *Assessments for badges*

## Progression

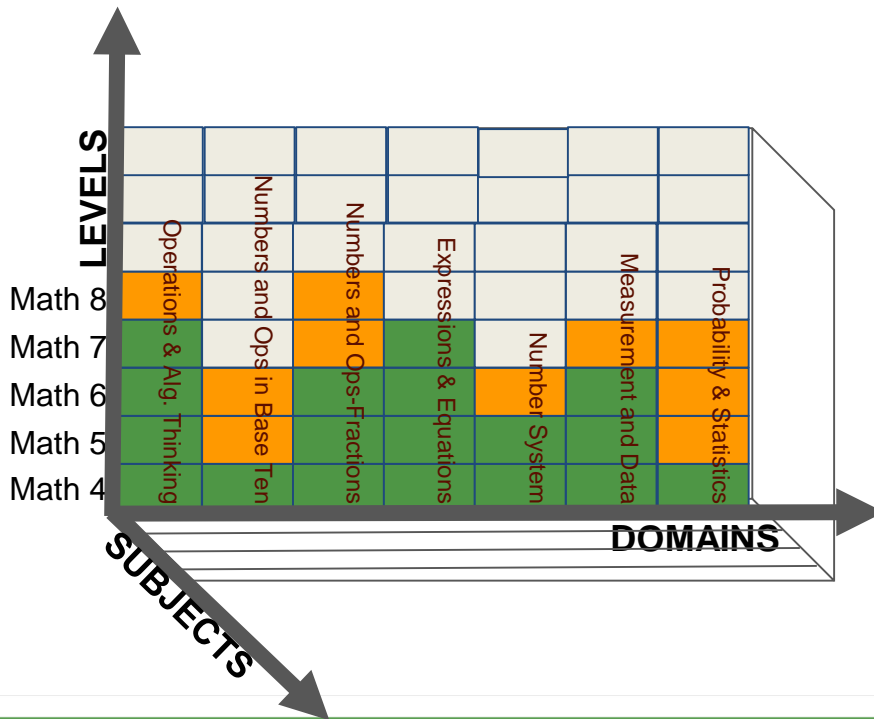

- *Pre-requisites*
- *Cross-subject*

# "Latitude-Longitude for Learning"

Extend or Refine the Learning Space in any area of Learning

## Metric space

- Z-axis for Subject
  - Core curriculum
  - Non-cognitive skills
  - Skills Training
- Y-Axis for Learning Depth
  - Competencies span domains
- X-Axis for Domains
  - Domains of concepts
  - Domains span courses
- XY-Plane for competencies
  - X-Y points are Concepts
  - Concepts grouped into Competencies
- Skyline
  - Line connecting the highest competency

# "Locate the Learner"

Real time updates of the learner's mastery in competencies

1 Year Ago

6 Months Ago

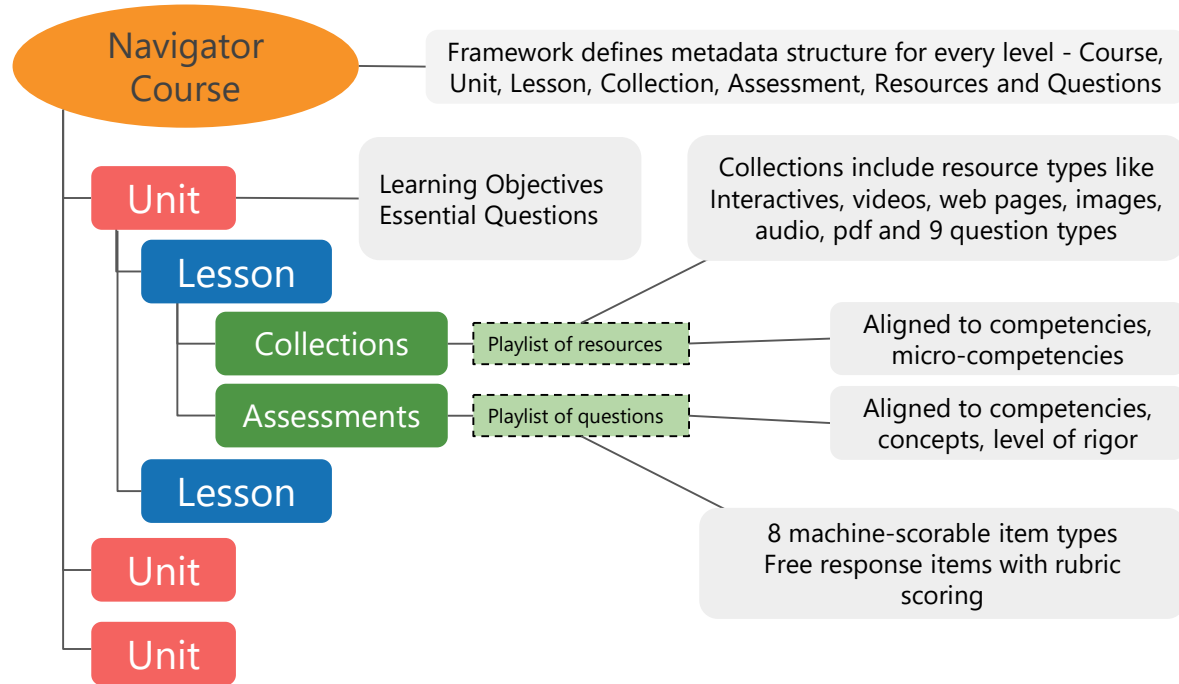

1 Month Ago

1 Week Ago

# Develop Navigator Courses

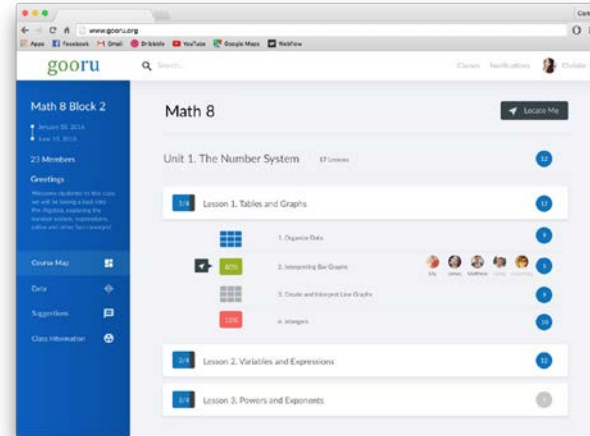

Tagged to competencies and complete with assessments

# Facilitate Classroom Practices with Monitoring and Live Assessments

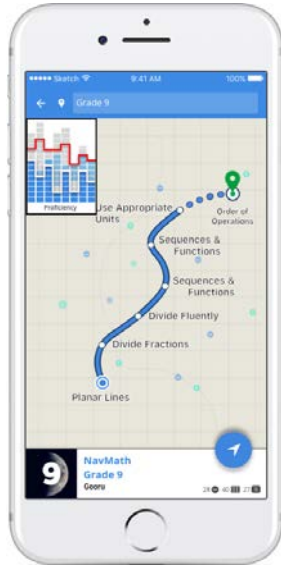

Students achieve academic success and develop non-cognitive skills with support from teachers and peers

The Learning Navigator  
[\(click to watch the video\)](#)

# Mediate Personalized Pathways

## Route Based on Profile

- Learner Profile = Progress + Performance + Proficiency + Portfolio + Preference
- Reroute reinforces a competency when a student underperforms
- Students earn a badge for a competency against a "signature assessment".

## Reroute based on Performance

## Awards & Recognition
