18 Jun 2020

Trackless Mobile Infantry Targets

Description/Summary of Program Requirements

The Program Manager for Training Systems (PM TRASYS), Marine Corps Systems Command (MARCORSYSCOM), is seeking to fill a capability gap for Trackless Mobile Infantry Targets (TMITs), which provide semi-autonomous, robotic human-type targets (HTT) for use during combat training, with a Knowledge Based Training Services (KBTS) solution.

The proposed contract action is to procure Knowledge Based Training Services (KBTS), providing an environment to better simulate the actions of adversaries resulting in increased lethality and more effective warfighters throughout the Marine Corps.

ACQUISITION STRATEGY

- Competitive Task order under MTSS

PERIOD OF PERFORMANCE

- 11 Sept 2020 – 10 Sept 2021

- N/A

Role Player Consolidation

Description/Summary of Program Requirements

The purpose of the Infantry Immersion Trainer (IIT) and the Home Station Trainer (HST) Role Player (RP) contracts is to provide high-fidelity training environments with enhanced battlefield realism including exposure to operational complexities, mental and physical stress, and challenging ethical and tactical decision-making utilizing Role Players, battlefield effects, atmospherics, modified training weapons, and other enhancements. The Immersive Training Range Support (ITRS) Subject Matter Expert (SME) contract provides scenario planning and After Action Review (AAR) support for the unit conducting the exercise and assists the RP team with proper execution of the mission. The proposed contract action is to combine these separate contracts into one longer contract to provide cost benefit and savings to the government.

ACQUISITION STRATEGY

- Competitive 8(a) set aside

PERIOD OF PERFORMANCE

- FY22 – FY32
