## Description/Summary of Program Requirements

- PM TRASYS awarded a Multiple Award Task Order Contract (MATOC) in March of 2021 that is primarily aligned with the ERS Service Portfolio Group within DoD's Taxonomy of Services. The ERS-S MATOC scope is intended to be broad in nature and entails sustainment support for existing and future USMC training systems. Scope includes maintenance, logistics and training requirements. Systems supported under this contract are relatively complex items of training equipment, using electronic/mechanical means to reproduce conditions necessary for an individual or a crew to rehearse operational tasks.

### ACQUISITION STRATEGY

- Small Business Competition
- Multiple Award Contracts for the same or similar services

## Description/Summary of Program Requirements

- PM TRASYS awarded a Multiple Award Task Order Contract (MATOC) in August of 2021 that is primarily aligned with the ECS Service Portfolio Group within DoD's Taxonomy of Services. The ECS MATOC will include sustainment support for Post Deployment Software Support, On-going Software Development and Cybersecurity. Systems supported under this contract are relatively complex items of training equipment, using software applications to represent conditions of combat operations necessary for multiple echelons of training.

## Indoor Simulated Marksmanship Trainer (ISMT)

ISMT is an existing capability that uses simulation to instill and sustain Marines and Sailors in marksmanship fundamentals, crew served weapons employment, call for fire and tactical decision making. ASALT is a new capability intended to provide an enhanced capability that directly supports weapons proficiency training to include updated scoring, team/squad drills, and advanced techniques within a simulated environment. The software support is anticipated to support both.
